

## Research Paper Self-Evaluation

1. Discuss at least three interesting facts or ideas that you learned about your topic through your research.
2. What was the biggest problem related to *researching* your paper that you had to solve? Describe how you solved it.
3. If you were to write your paper over, what would you change? Why?
4. Who or what helped you the most when you were writing your paper? How?
5. What was the biggest challenge related to *writing* your paper that you encountered? How did you overcome it?
6. What are you most proud of regarding your research or your paper?
